About Roobaroo Walks

We aim at helping people discover the soul that pervades India via stories interweaving her Culture, History and beautiful places with our Walking Tours, Yoga, Food Experiences & Art collaborations.

The richness of Indian heritage hardly needs any introduction. A system of mighty rivers nourishing some of the world's oldest civilisations, a great geographical diversity fostering a cultural kaleidoscope, and a strategic location at the boundary of the east and west have led to it becoming one of the most happening spots on the planet! This melange however, has also rendered the Indian heritage such an intricate design that can be overwhelming for an uninitiated seeker to comprehend. Also, with their origins shrouded in myth, the cool scientific rationale behind a lot of traditions are lost upon people.
